TREATY

NO OPPOSITION TO ACQUISITION OF DANISH WEST INDIES.

Complaint that Bankers Who Ship Currency to Cuba Are Careless in Packing the Money.

Special to the Indianapolis Journal. WASHINGTON, Jan. 29.-In a letter to a of national bank depositories. There is now gold reserve. Mr. Shaw thinks there can be a number of more depositories established and thereby \$50,000,000 or \$60,000,000 placed in circulation. He is opposed to buying more bonds, as he considers the premiums so high that the price is prohibitive. He estimates that the proposed revenues some \$50,000,000, but that is not the best solution.

The House committee on banking and currency to-day ordered a favorable report on the bill of Representative Cousins, of | ual deposit of lawful money, but hereafter | Iowa, authorizing the selection of reserve banks in cities of 15,000 population instead of 50,000, as at present, and having a min- the bank authorizing the withdrawal, sale imum capital of \$100,000 instead of \$200,000, and transfer of the bonds to be released for \$10,000, claiming that he was entitled to

TREATY WITH DENMARK.

Agreement in Regard to West Indian Islands Will Be Ratified.

the government of Denmark for the cession of the West Indian islands sold by that country to the United States to-day received its first attention at the hands of the Senate committee on foreign relations. The greater part of the time of the committee's sitting was given to this question, but the committee adjourned without taking action. This postponement of action was not due to opposition to the treaty, but rather to a desire on the part of the members to secure from the State Department all the information obtainable concerning the resources of the islands and the advantages to be secured by their control by the United States. All the members of the committee present, including several Democrats, exsession of the islands would be of advantage to this country from a strategic point of view. The present prospect is that the

other meeting devoted to its consideration. ville, Ky.; Charles H. Maris, collector of There was some discussion as to the effect of the treaty on the inhabitants of the West Indies, but this apparently was settled by the condition that any resident of the island could maintain his allegiance to Denmark as long as he might desire to do so. There is no provision in the document itself for a plebiscite, but the general opinion among members of the committee as brought out in the meeting is that Denmark will exercise the privilege of permitting the inhabitants of these islands an opportunity to express by ballot their preference in the matter of the transfer. This opportunity is afforded in a provision for the ratification of the treaty by the Danish government after it shall have been acted upon by the Senate. It is believed that before the treaty is finally accepted by Denmark it will be placed before the people immediately affected by it and that they will be asked to express their preference

Favorable Report on Treaties.

WASHINGTON, Jan. 29.-The Senate committee on foreign relations to-day authorized favorable reports on the extradition treaties with Belgium and Denmark and the treaty regulating the descent of real property with Guatemala.

WOOL MANUFACTURERS.

Preliminary Census Report on One of the Great Industries.

WASHINGTON, Jan. 29 .- The census bureau has issued a preliminary report on the wool manufactures in the United States showing a total of 1,414 establishments, a decrease of 17 per cent. from 1890; total capital, \$310,179,749, increase 26 per cent. value of products, \$296,390,484, increase 10 per cent. The average number of wageearners is 159,108, drawing \$57,933,817 in wages. The miscellaneous expenses were \$181,150,669. These figures are exclusive of hosiery, knit goods and fur hats. The portions of the industry follow: Woolen goods-Capital, \$126,169,862, a decrease of 4 per cent; products. \$120,038,792, a decrease of 10 per cent. Worsted goods-Capital, \$130,384,510, an increase of 92 per cent.; products, \$118,705,710, an increase of 50 per cent. Carpets and rugs other than ragcent.; products, \$48,192.351, an increase of nine-tenths of 1 per cent. Felt goods-Capital, \$7,125,276, an increase of 60 per cent. cent. Wool hats-Capital, \$2,050,802, a decrease of 51 per cent.; products, \$3,591,940, a decrease of 33 per cent.

Number of establishments, 32,393, increase

Digests what you

Dyspepsia Gure

digestion. A strong stomach makes a vigorous man. The feeling of langour, the dull headache, the sensation of fullness, pains and tenderness in the region of the stomach, flatulence, belching and vomiting, the thousand and one symptoms of indigestion or other stomach trouble, of which most of us know more or less, unfit both body and mind for hard work or continuous application. You wouldn't suffer like that if you knew a certain remedy, would you? Yet such a remedy exists. Kodol Dyspepsia Cure quickly relieves all these symptoms, and, by giving the stomach entire rest,

speedily cures the disease itself. Even among the happy possessors of comparatively sound stomachs there are few who are not at least occasional sufferers. Irregular hours, mild dissipation, excessive use of tobacco, hasty eating or overindulgence in a favorite dish frequently produce as unpleasant though not as lasting results as the most serious of chronic cases. If these temporary sufferers realized that Kodol Dyspepsia Cure offered sure and almost im-

keep it constantly in the house? You can go about your business and dis-

regard a pain in any other part of the body. But stomach trouble prostrates. The stomach supplies the entire system. If it fails to perform its task these supplies are cut off-and we cannot live without food. We all know this, but haven't we fallen into the error of assuming that, once swallowed, food has accomplished the purpose for which it was eaten? It hasn't, by any means. Until it is properly digested the system cannot assimilate it. It remains in the stomach until it decomposes and might far better not have been eaten at all. Kodol Dyspepsia Cure digests this food without aid from the stomach and digests it as well as the stomach itself could do the work. Through its aid the food you have eaten is reduced to a form in which the system can assimilate it and the body is built up while the tired stomach rests.

The trouble with dyspeptics is that they're starving. They have eaten but their food is undigested and consequently does them the strain. Finally it collapses.

You can best succeed in life with a good mediate relief how many would neglect to no good. Kodol Dyspepsia Cure not only relieves the patient's sufferings in such cases but also removes the cause of suffering. It relieves by digesting the patient's food and enabling his system to transform it into bone and muscle, blood and brain. It cures by allowing the stomach rest until it is restored to its natural condition.

If the stomach is out of order not an organ of the body escapes some correspond-ing derangement. There are few diseases which cannot be traced directly to the stomach. If the stomach is weak the body is weak. If the stomach is strong, the entire

body is strong. None of us want to suffer from indigestion or dyspepsia but the hurry and nervous tension of the times have made them the commonest complaints of the generation. Often we eat too fast, too soon after or too shortly before violent physical exercise or severe mental strain. Sometimes we are too busy to eat at all at the proper time and overload our stomachs when the opportunity comes. For awhile the abused organ stands

when the pain in my stomach ceased. That

day I enjoyed a good meal for the first time

After taking three bottles of Kodol Dys-

pepsia Cure I am as well as ever. It saved

It gives the stomach perfect rest.

Dear Sirs:-I have suffered a great deal from nervous dyspepsia for the last twelve months. I tried two doctors who said they could not cure me, but your agent came along and I bought some Kodol Dyspepsia Cure to sell, and decided to try it myself and I found more relief from that than anything I have taken. I eat anything I want to and improve every day and it has given my customers perfect sat-

I can heartily recommend it to all that are suffering from indigestion or dyspepsia to be the best remedy on the market. Yours truly, J. W. Smith, Preston, N. C.

Gentlemen:-For the sake of suffering dyspeptics I render this testimonial. After suffering thirteen years from indigestion (neuralgia of the stomach and all its

multiform troubles) and after receiving treatment from many doctors for the same, I was induced to try Kodol Dyspepsia Cure, buying my first bottle in March 1900. Since that time I have used nearly two dozen bottles -- a proof of my faith in its virtue.

or three days without using it and I consider myself in a fair way toward permanent recovery. Fraternally yours, J. Ivison, Lonaconing, Md. Gentlemen:—A few months ago I gave up hope of living and was in such agony from

my life and I cannot recommend it too highly .- Mrs. Alba F. Crawford, Pittsburg, I have not had one pain since commencing its use. Sometimes I can go two Gentlemen:-I have been troubled with

in many months.

indigestion for ten years and have tried many things and spent much money till I tried Kodol Dyspepsia Cure. I have taken two bottles and have obtained more relief from them than from all the other medicines I ever used. I am now feeling chronic indigestion that I prayed I might better than I have been in five years and feel more like a boy than I have felt in pass from my suffering. One day I learned twenty years.-Respectfully, Anderson

The trust fund is to be apportioned and the amounts credited to individual Indians. At the end of five years the secretary of the Baltimore American. interior will relinquish to each Indian, who is considered capable of managing his own affairs, the amount of money due him. With this transfer of the trust fund the government will cease all guardianship and control of the Kaw Indians. They have been selected, for the purpose of testing the merits of this favorite government policy. on account of their advancement, industry

and thrift, as well as their anxiety to have their tribal relations dissolved and to manage th r own business. Most of them are prosperous and capable of enjoying full citizenship. If this experiment proves successful it will be a step in the speedy winding up of the affairs of the majority of

Indians now under control and special protection of the government. The Osages, a neighboring tribe, are far advanced in civilization, and it is said is the richest tribe according to numbers in the Union. Congress will probably authorize action with them similar to that outined above for the Kaws. The Creeks in Indian Territory, as well as the Cherokees. Thoctaws, Chickasaws and Seminoles will be ready within five years, when present treaties expire, to enter on the same career of individual freedom and self-support.

A COTTON COUNTRY.

King Cotton claims this country down here as part of his domain. A familiar sight to the traveler in autumn is the picking of the white, fleecy staple in the fields, mostly by negroes, alongside the patches of that other great staple, corn. The streets season by country wagons filled with cot- Bran\$1.05 per hundred pass onto the scales, where their load is | Corn weighed and then under a shute where, by means of an air-blast, the wagon is unloaded as quickly as a hungry person can and avoid the rush. swallow a bowl of soup by the vacuum and pneumatic process. The gins are cylindrical machines in which circular saws revolve rapidly, divesting the tenacious seeds of tories. For instance, they have a picture of in the mill that I have visited—is then formed into thin sheets like cotton-batting and gradually fed to a roll with iron core, like a roll of newspaper, and when of proper size, weighing from 250 to 280 ounds, it is covered all over with coarse bagging ready for market. This is the noted process secured by a patent and owned by the round-bale trust in which Senator James K. Jones, of Arkansas, is a large stockholder. He is chairman of the Democratic national committee and a great howler against trusts. Probably no other monopoly except the steel and standard oil pays larger profits. It requires a vast amount of gall to abuse the Republican party as the friend of trusts, but Jones has plenty of it in stock.

Near the gin, of which there are two here, is the cotton-seed oil mill. The processes here are very interesting as exlained by Manager George C. Bushnell. The seeds, with considerable cotton fiber still clinging to them, go into another set of gins containing more and finer saws, which divest them of the last vestige of cotton. They are then cut to pieces in another machine and the hull separated from he pulp. The latter is then cooked in steam heaters and placed in thin layers between felt cushions; then placed in powerful hydraulic presses and the oil forced out, flowing into tanks in the basement. thence pumped into large iron ones in the open air. The cakes left after the oil is expelled are broken and ground and used for stock feed, for which purpose, mixed with wheat bran or corn meal, it is very nutritious. The hulls are also used for feed and fertilizers. Nothing is wasted in but are interunderstandable, to coin a new | the various processes. The oil finds ready words have a musical sound. A man who | The meal when ground is of a marcon color has lived in the Territory many years re- with a greenish tint and stains everything

Looking at cotton-seeds as they come from the gins, one would suppose that not enough cotton would be left on them to pay for a second ginning; yet, after being ginned again with finer machinery, sufficient short-fiber cotton is obtained to add materially to the profits of the cotton-seed oil company. This cotton is compressed in square bales in the old-fashioned way and hipped in all directions.

Muskogee and others of the larger towns in this Territory and Oklahoma are improving rapidly. So far this winter, except a week's cold spell in December, building operations have progressed as they do during spring, summer and fall.
